FOR IMMEDIATE RELEASE

**City of St. Louis Press Releases Regarding Leaked Closed Session Meeting
Minutes from Airport Working Group**

December 18, 2019

ST. LOUIS, Missouri---The City Working Group has been made aware that minutes from a confidential closed session of the group have been leaked to the media. The City would therefore like to reiterate that it continues to be committed to running a fair and equitable process. There continues to be a healthy debate among the City Working Group members about the optimal number of respondents to advance to the next stage of the process, but no decision has been made yet. The ultimate decision is that of the City Working Group and not the advisors, who have helped summarize and reflect the views of the City Working Group, advisors and other constituencies in order to facilitate the City's decision-making process. The City and the Working Group remain committed to a fair process.
